

## Corporate Overview

KenBay LLC specializes in industrial waste management solutions, primarily manufacturing and distributing the original rotary industrial waste compactor, the **RotoPac**, for over 20 years. Trusted by more than 1,000 clients globally, KenBay has partnered with organizations across aerospace, manufacturing, food processing, and government sectors, including the Department of Defense (DoD) and other federal agencies. *Our mission is to provide sustainable waste solutions that significantly reduce labor and hauling costs while enhancing operational efficiency.*

### Core Competencies

- **Rotary Waste Compactors:** The versatile RotoPac offers continuous compaction, compacting waste into 1-cubic-yard bags/boxes, enabling up to 80% cost reduction.
- **Custom Solutions:** Fabrication of compactors tailored to specific industry needs, including hazardous waste, saltwater environments, and food-handling applications.
- **Comprehensive Waste Handling:** Questar bags, boxes, and drums for non-hazardous and hazardous materials.
- **Industries Served:** Aerospace, food processing, pharmaceutical, and defense sectors.

### Differentiators

- **Innovative Technology:** Self-installed, operator-free compactors with small footprints for easy integration into existing workflows and near source of waste inside facility.
- **Material Versatility:** Compaction solutions for plastics, cardboard, toxic waste, bulk bags, and more.
- **Durable Design:** Available in standard, 304, or 316 stainless steel for challenging environments.
- **Sustainability Focus:** Questar packaging solutions for eco-conscious waste handling.
- **Safety Features:** Integrated safeguards for high-performance compaction processes.

## Our Accomplishments

- Installed two RotoPac units in a secure Army base cafeteria, reducing waste removal from two dumpster loads per week to less than one.
- Configured RotoPac systems to safely remove waste from explosive fumes in Air Force Base paint shops.
- Delivered specialized compactors for high-pressure and high-temperature washdowns in food-handling environments.
- Provided NAVAIR with hazardous waste compaction solutions, achieving annual savings of \$30,000 and ROI in under a year.
- Enabled a beef producer to compact frozen food packaging, delivering \$125,000 in value with stainless steel solutions.
